

Permit Number _____

Fencing

- There is fence or barrier completely surrounding the pool. If the house is part of the barrier, the doors to the pool are protected with an alarm.
- The fence or barrier is at least four feet high.
- The fence has no footholds or handholds that help a young child to climb it. On chain linked fences, no part of the diamond shaped opening is larger than 2 1/4 inches.
- Vertical slats are less than 4 inches apart to prevent a child from squeezing through.

Gates

- The gate is self-closing.
- The gate has a self-latching mechanism in proper working order.
- The gate latching mechanism is out of reach of young children.

Doors

- All exit doors from the house to the pool are protected with alarm.
- There is an audible warning temporarily for a single opening of the door by using a keypad or switch that is out of reach of children.

Steps and Ladders

- Steps and ladders leading to an above-ground pool are secured, locked, or removed when the pool is not in use.

Pool Alarms

- State Law requires a pool alarm to be installed on any pool 36"(thirty-six inches) deep or more.
